Summary

5 years of total experience with 4 years of Building frontend apps using React JS, 4 years of experience building Server-Side applications using NodeJS and Express, and 2 years of experience building mobile apps using React Native.
I also have 3 years of experience building backend servers using Go Lang and Fibre framework.
Experienced UI developer trained in HTML, CSS, Javascript, Typescript, and Material Design.
Experienced in building backend servers using NodeJS and Go Programming Language.

Developed a crowdfunding app using React Native, NodeJS, and MongoDB.
Developed an E-commerce application that enabled vendors to sell their products and consumers to buy products.
Built a hospital management system that enabled hospitals to manage their patients and doctors.

Experience

Full Stack Engineer
Dev Track
Jan 2022 - Present (1 year 3 months)
Design websites, mobile apps and APIs using REACTJS, react native and Nodejs

Full Stack Engineer
SORPHISE
Jan 2019 - Jun 2022 (3 years 6 months)
Translated Wireframes and PSD Designs into functional web apps.

Bound UI elements to JavaScript object models

Created RESTful services with Node.js

Created Unit and Integration tests to ensure the quality of code

Changed requests and feature requests

Wrote reusable, testable, and efficient code

Designed and implemented low-latency, high-availability, and performant applications

Implemented security and data protection

Full-stack Developer
Vien Health

Jun 2021 - Dec 2021 (7 months)

Regularly inspected server code for speed optimization.

Conceptualized and implemented solutions for data storage.

Improved the quality of the team's code through writing unit tests and automation.

Collaborated and worked closely with the product and design team to understand better the end-user requirements.

Configured the backend usability of all front side application.

Provided code documentation and other inputs to technical documents

Integrated user-facing elements developed by front-end developers with server-side logic

Provided code documentation and other inputs to technical documents

Participated in code reviews

Troubleshooting and debugging to optimise performance

Teaching Assistant

Kwame Nkrumah' University of Science and Technology, Kumasi

Sep 2017 - Aug 2018 (1 year)

Education

Kwame Nkrumah' University of Science and Technology, Kumasi

Computer engineering, Computer Engineering

2013 - 2017

Zero To Mastery Academy

Licenses & Certifications

Basic Problem Solving Skills - HackerRank

Hackerrank Basic Python Certification - HackerRank

Hackerrank Basic Javascipt Certification - HackerRank

Java Basic Certification - HackerRank

M001 MongoDB Certification - MongoDB

M121: The MongoDB Aggregation Framework - MongoDB

Docker for absolute beginners - Hands on - KodeKloud

Responsive Web Design - freeCodeCamp

Python for beginners - Learn all the basics of python Python for beginners - Udemy

Learn Go Course - Codecademy

Learn PHP Course - Codecademy

Learn TypeScript Course - Codecademy

Skills

Algorithms • Web Development • Unit Testing • HTML5 • Cascading Style Sheets (CSS) • JavaScript • TypeScript • React.js • Google Material Design • Responsive Web Design
